Owners Network

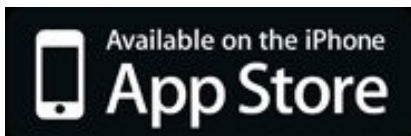

Technical support for your home

Christian Building Inspectors, Inc. is announcing that as part of every home inspection, clients will be offered a free membership (a \$199 value) to the [Home Owners Network \(HON\)](#). HON provides technical support to clients for their home so that they can have peace of mind and save money on repairs and maintenance. Clients of Christian Building Inspectors will have complete access to a staff of experts to answer any questions they might have on the technical aspects of their home by using a free phone app or by using the form on the HON website. Membership benefits also include access to great discounts that are not available anywhere else.

Member Benefits

The benefits of HON membership are plenty! Here are just a few:

HON's Ask an Expert App: Get "The right answer right now!" This is not just a slogan for HON, it is their mission. You have a question, they have the answer. [Click here to get the app.](#)

Live Technical Support for Your Home: You can contact someone to help you with your computer or your health, but what about the health of your home? HON is live support for your home now. Ask a question, send a photo if you like, and they will respond quickly. Never before has a service like this been available for home owners.

Pre-Screened Contractor Referrals: Who should I hire to help me with this? Need to replace a roof? Heat not functioning? Electrical breaker tripping when you use your microwave? Rest assured, they are not only a technical support company but a resource for service and repair companies dealing with nearly every aspect of your home.

As a huge benefit, HON members are entitled to use the pre-screened, insured and vetted contractors from Home Repair Network (HOCO). HON has made an agreement with

HOCO that will enable you to use their services, and they have even arranged to have the usual \$59 fee waived. Not just a "List", HOCO contractors are head and shoulders above all other screening services because each contractor is *personally* interviewed in the area they work and must provide references, insurance and is subject to the quality control of a local representative.

No online service can match the pre-screening process of HOCO.

Get a trustworthy quality job at a fair price.

Services include: handyman, contractor, cleaning, plumber, locksmith, electrician, painter, mover and many, many more!

[Click here to learn more.](#) If they don't have resources in your area at this time, they will guide you on how to best select one.

Home Information: What is this thing? Not sure what something is or does in your home? Take a photo and send it

to them. They will help you understand what you are looking at.

Diagnostic Help: Want to know what is causing a problem with systems or components in your home? They love to help home owners with common or complex issues they are experiencing with their homes.

Repair Information: How do I repair this? They work with thousands of the finest service and repair technicians

The addition of **HON** is just one of a number

of value added services that Christian Building Inspectors offers each client with every home inspection. Christian Building Inspectors continues to offer a RecallChek, which is another way we help protect and assist clients. RecallChek reports help to protect and inform homeowners by investigating the status of their appliances to determine if a product has been issued a manufacturer's safety recall. For appliances that have been recalled, [RecallChek](#) will identify the nature of the recall,

where the product was sold, how to remedy the defect, and

how to get the item repaired or replaced from the manufacturer. We also give a 90 Day Warranty with every home inspection. The warranty covers all of the major

appliances in the home and has zero deductible. These services distinguish Christian Building Inspectors from the rest of the inspectors by offering great value with every home inspection. For more information, visit our website at www.cbiga.com.

IT'S THAT TIME OF YEAR AGAIN....

Daylight Savings Time Ends On Nov. 3rd
This is a good time to replace smoke detector batteries.

Quote Of The Month

"It is only by introducing the youth to great literature, drama and music, and to the excitement of great science that we open to them the possibilities that lie within the human spirit - enable them to see visions and dream dreams."

Eric Anderson
